Here we are in 2018 exciting times ahead with our Head Up Brace designed and built by our Custom Fabrication team. We have produced a totally unique and life changing product for patients with Motor Neurone Disease. This is the latest product to join our strong product portfolio in excess of 7000 lines.

Improving patient outcomes will remain to be our focus in the future working closely with clinicians to provide support and innovative solutions in the market.

Thank you to all who have been part of our journey so far.....
