

Job Description

Position – Sewing Machinist

Hours of Work – Monday to Thursday 7:45 – 4:15
Friday 7:45 -12:45

Skills Required – Must be competent in the use of zig zag machines, straight stitch machines, overlocker machine and binders.

Overview – We are proud to be a UK manufacturer of a variety of Orthopaedic Products, such as wrist braces, knee braces, spinal belts, ankle supports all produced to a very high standard. Therefore experience in using an industrial sewing machine would be essential. Training will be given to the right candidate. Must be reliable and good timekeeping is also essential.
